GENERAL NOTES

- (1) Where no separate time is shown for arrival and departure, the time indicated is the departure time.
- (2) Trains must leave at the advertised times whenever practicable. Where the departure times of passenger trains are slightly earlier than those shown in the Working Time Table, the former must be used in all quotations to the public.
- (3) A minute is allowed for station duties in the case of steam trains on the section between Heyford and Banbury and a half-minute at other stations applies both to Diesel and Steam Trains unless separate arrival and departure times are provided or more time is specified by letter indications.
- (4) Figures in light type indicate the time at which a train should pass a Station or Signal Box.

PUNCTUAL TRAIN WORKING

The working times for each train in this book have been set down so that, when the train is running under clear signals and temporary speed restrictions are not in force, the train can run to time without the full power of the diesel or steam locomotive being used continuously.

The times allow for all permanent speed restrictions to be kept.

When known temporary speed restrictions are in force drivers should use the extra power in the locomotive before the point of restriction is reached so that time is in hand to offset its effect.

Full power must also be used when time has been lost for any reason and every effort made to get the train back into its booked path.

The main object of good train working is that each train should stop at each calling point at the booked time and pass each point, where a passing time is given, at, or as near as possible to, the passing time shown, subject to what is stated above.

POINT TO POINT TIMES FOR EXPRESS PASSENGER TRAINS

(a)—'King' Class engines not authorised over this route, except in emergency.

(b)—When the load of a train is composed of B.R. Standard Stock the tonnage may be increased from 300 to 315 tons and from 400 to 420 tons.

Point to Point timings under four categories will apply according to the class of engine working the train and the load conveyed. The different sets of timings are indicated by the number of stars shown at the head of the columns above and correspond with those shown at the head of the columns on the tabular pages.

In the case of certain trains which are indicated in the column of the tabular pages as conveying 'Special Load', faster timings than those shown above will apply.

Trains not indicated by Stars will run at Standard point to point times shown in the column headed 'Through Trains conveying Standard Loads'.

FOUR CHARACTER TRAIN IDENTIFICATION SYSTEM

(1) GENERAL

The number inserted in each column immediately below the train title is the description allocated under the four character train identification system and must be displayed on the front of diesel locomotives and multiple units fitted with four character indicator equipment.

The last three characters (i.e. a letter and two figures) will be carried on the locomotives of steam-hauled express passenger trains.

The first figure of the four character description indicates the classification of the train.

(2) DESTINATION INDICATIONS

Except for light engines and local freight movements the second character of the number indicates the destination area or Region as shewn below.

Trains Running within Western Region

Letter	Denotes Destination in:
A	London District
B	Bristol District
C	Exeter and Plymouth Districts
T	Newport and Cardiff Districts
F	Swansea District
H	Birmingham (L.M.R. Western Lines) District and Gloucester District
J	Shrewsbury (L.M.R. Western Lines) District
Z	For excursion, military and special trains running within the Western Region.

Inter-Regional Trains

Letter	Denotes Destination in:
E	Eastern Region
M	London Midland Region
N	North Eastern Region
O	Southern Region
S	Scottish Region
V	Western Region
X	For inter-Regional excursion, military and special trains.

(3) INDIVIDUAL TRAIN NUMBERS AND ROUTE NUMBERS

Except for light engines and local freight movements the third and fourth figures of the number represent the individual number of the train or, in the case of local passenger trains, a route number as set out hereunder.

The route numbers in the block 50-99 also apply to empty coaching stock movements from any point within the Region.

ROUTE NUMBERS

BIRMINGHAM (L.M.R Western Lines) DISTRICT

The route number allocated to a train will be that relating to the section in which the journey is terminated, irrespective of the point of commencement. According to the direction of travel the route numbers EXCLUDE the first station in the Section and INCLUDE the last.
