NOTES

- (i) Where no separate time is shown for arrival and departure, the time indicated is the departure time.
- (ii) Figures in light type indicate the time at which a train should pass a Station or Signal Box.

RECOVERY OF TIME

When trains are running late, every endeavour must be made to recover time, subject to the strict observance of all speed restrictions, both permanent and temporary.

FOUR CHARACTER TRAIN IDENTIFICATION SYSTEM

(1) GENERAL;

The number inserted in each column immediately below the train title is the description allocated under the four-character train identification system and must be displayed on the front of diesel locomotives and multiple units fitted with four-character indicator equipment.

The first figure of the four-character description indicates the classification of the train but, for the time being, the former headcode letters are retained at the heads of the columns.

(2) DESTINATION INDICATIONS

Except for light engines and local freight movements the second character of the number indicates the destination area or Region as shown below.

For train numbering purposes the former district boundaries will apply until further notice.

Trains Running within Western Region		Inter-Regional Trains	
Letter;	Denotes Destination in:	Letter	Denotes Destination in:
A	London District	E	Eastern Region
B	Bristol District	M	London Midland Region;
C	Exeter and Plymouth Districts	N	North Eastern Region
T	Newport and Gloucester Districts	O	Southern Region
F	Cardiff and Swansea Districts	S	Scottish Region
H	Birmingham and Worcester Districts	V	Western Region
J	Chester and Oswestry Districts	X	For inter-Regional excursion, military and special trains.
Z	For excursion, military and special trains running within the Western Region.		

(3) INDIVIDUAL TRAIN NUMBERS

Except for light engines and local freight movements the third and fourth figures of the number represent the individual number of the train.

(4) LIGHT ENGINES AND LOCAL FREIGHT MOVEMENTS

For light engines and local freight movements the last three characters of the number (i.e. a letter and two figures) represent a destination station, yard or Running and Maintenance depot, or, in the case of targets, control trips and bank engines, an individual description allocated from the series T00-T99.

Table "A" overleaf sets out destination indications for light engine movements to main Running and Maintenance depots and between districts while Table "B" sets out destination indications for Birmingham District stations, yards and Running and Maintenance sub-depots for use in respect of local freight and light engine movements.
