RECOVERY OF TIME LOST BY PASSENGER TRAINS

The point to point times for varying loads are shewn on this page and pages 4 and 5, and, when trains are running late, every endeavour must be made to recover time, subject to the strict observance of all speed restrictions, both permanent and temporary.

NOTES

- (1) Letters inserted in columns over train titles indicate the classification of the trains and the head codes to be carried.
- (2) Figures inserted in columns immediately below train titles indicate train reporting numbers. Except where otherwise indicated, numbers will be carried on the front of the engine when shown in heavy type but not when shown in italics.
- (3) Where no separate time is shown for arrival and departure, the time indicated is the departure time.
- (4) **Trains must leave at the advertised times whenever practicable. Where the advertised departure times of passenger trains are slightly earlier than those shown in the Working Time Table, the former must be used in all quotations to the public.**
- (5) A minute is allowed for station duties in the case of steam trains unless separate arrival and departure times are provided or more time is specified by letter indications.
- (6) Figures in light type indicate the time at which a train should pass a Station or Signal Box.
