NOTES

- (I) Where no separate time is shown for arrival and departure, the time indicated is the departure time.
 - (II) Figures in light type indicate the time at which a train should pass a station or signal box.
-

RECOVERY OF TIME

When trains are running late, every endeavour must be made to recover time, subject to the strict observance of all speed restrictions, both permanent and temporary.

FOUR CHARACTER TRAIN IDENTIFICATION SYSTEM

(1) GENERAL

The number inserted in each column immediately below the train title is the description allocated under the four character train identification system and must be displayed on the front of diesel locomotives and multiple units fitted with four character indicator equipment.

The first figure of the four character description indicates the classification of the train but, for the time being, the former headcode letters are retained at the heads of the columns.

(2) DESTINATION INDICATIONS

Except for light engines and local freight movements the second character of the number indicates the destination area or Region as shown below.

Trains Running within Western Region		Inter-Regional Trains	
Letter	Denotes Destination in	Letter	Denotes Destination in
A	London District	E	Eastern Region
B	Bristol District	M	London Midland Region
C	Exeter and Plymouth Districts	N	North Eastern Region
T	Newport and Cardiff Districts	O	Southern Region
F	Swansea District	S	Scottish Region
H	Birmingham and Gloucester Districts	V	Western Region
J	Shrewsbury District		
Z	For excursion, military and special trains running within the Western Region.	X	For Inter-Regional excursion, military and special trains.

(3) INDIVIDUAL TRAIN NUMBERS

Except for light engines and local freight movements the third and fourth figures of the number represent the individual number of the train.

(4) LIGHT ENGINES AND LOCAL FREIGHT MOVEMENTS

For light engines and local freight movements the last three characters of the number (i.e. a letter and two figures) represent a destination station, yard or Running and Maintenance depot, or, in the case of targets, control trips and bank engines, an individual description allocated from the following series:

Depot	Series
Swansea Eastern Depot	F01-F30
Swansea St. Thomas	F50-F60
Landore	F70-F80
Duffryn Yard	H01-H20
Glyn Neath	H40-H50
